

Shockwave 25' Tremor Walk-Through

Shockwave's 25' Tremor is a proven midsized custom lake machine, and this quality-oriented builder has brewed this popular-running platform to peak levels. They're wisely extracting maximum possible mileage from a running surface that has elicited consistent praise on these pages, and recently integrated a third topside option for the perusal of the family lake boater—the 25' Tremor Walk-Through.

A hybrid derivative of their existing single-step vee Tremors, the conventional bowrider and the full cabin, the walk-through Shock splits an access path through the boat with a matched set of tastefully finished passenger enclaves.

While the walk-through bowrider isn't exactly breaking news, Shockwave has ▶
